We hope to have a draft permit available to MassDEP for internal, inter-agency review by then, starting a maximum three week review period. With the up-coming plant closure, this permit represents an much lower cost to the facility than initially envisioned, as we will explain on 12/17/15. Also on 12/17/15 we will be seeking MassDEP's decision on whether this is drafted for public notice as a joint EPA/MassDEP permit.
